

Weightless

(Chorus 1 sing everything in **BOLD**)

Weightless, weightless

Away from the pull of the Earth

Travelling at speeds quite astronomic

Away from the pull of the Earth

All achieved without a sound or slightest sign of
effort

Flying, zooming through this dark place

Deep space, further and further away

Soundless, soundless

Drifting away from Earth

Silent through the void of deep space

Drifting away from the Earth

Seeing the world just disappearing moment after
moment

Flying, zooming through this dark place

Alien space, further and further away.
